A good consortium ...

- ✓ Has to be built according to the project objectives
- ✓ Has to be well-balanced, gender balanced and with a credible team that shares the same vision, with a core of people capable of leading the project (solid project management is very relevant)
- ✓ Needs to cover all the players in the research innovation chain; don't hesitate to include consumer/user associations
- ✓ Take into account the expertise of all members and their sectors (complementarity and synergy between members)
- ✓ Check their resources and infrastructures
- ✓ Take account of language barriers and cultural differences
- ✓ Choose partners with whom you have already worked (to form a responsive and dynamic core group), commitment and trust are essential
- ✓ Think about intellectual property from the outset (consortium agreement compulsory)

IMPORTANT NOTICE

Scoring:

Scoring must be in the range from 0-5. Half-marks may be given.

- 0 — The proposal fails to address the criterion or cannot be assessed due to missing or incomplete information.
- 1 — Poor. The criterion is inadequately addressed, or there are serious inherent weaknesses.
- 2 — Fair. The proposal broadly addresses the criterion, but there are significant weaknesses.
- 3 — Good. The proposal addresses the criterion well, but a number of shortcomings are present.
- 4 — Very Good. The proposal addresses the criterion very well, but a small number of shortcomings are present.
- 5 — Excellent. The proposal successfully addresses all relevant aspects of the criterion. Any shortcomings are minor.

Thresholds & weighting:

The threshold for the individual criteria is 3. The overall threshold, applying to the sum of the 3 individual scores, is 10 points.

Weighting is only for the ranking (not to determine if the proposal passed the thresholds).

⚠ Specific calls or topics may have different rules regarding thresholds and weighting.

Specific cases:

Two-stage calls

For stage 1 proposals, only the criteria Excellence and Impact will be evaluated and within those criteria only the aspects indicated in bold in General Annex of the Main Work Programme. The threshold for each of the two individual criteria is 4.

After the evaluation, the call coordinator will then fix an overall threshold, to limit the proposals that will be invited to stage 2. (This overall threshold will be set at a level which ensures that the total requested budget of proposals admitted to stage 2 is as close as possible to three times the available budget, and in any case, not less than 2.5 the available budget. The actual level will therefore depend on the volume of proposals received. The threshold is expected to normally be around 8 or 8.5.)
